- A Truly Revolutionary Product – The **AVDI** communicates with almost any vehicle **via OBD** to perform basic diagnostic functions as standard. Special functions such as **Key Programming/PIN Code Extraction/Mileage Recalibration/Transponder Programming** can be purchased separately.
- **ABRITES Commanders** include **VAG/Porsche/Mercedes/Opel/Toyota/BMW/Renault/Fiat/Peugeot/Nissan/Toyota/Chrysler/Ford/Mitsubishi/Hyundia & KIA** (more to be added for free) providing software for the broadest range of vehicles capable of any tool on the market today!
- **SAE J2534** fully compliant driver included as standard, allowing compatibility with 3rd party software such as **Tech2Win, BUDS, Volvo VIDA, BMW DIS, Ford Scanner, Subaru Select Monitor III** etc.
- **TAG** programmer works with AVDI to program keys/transponders with ABRITES software. **VAG, BMW, Renault Nissan Mercedes & Fiat** in particular.
- **TagKeyTool (KT001)** software which allows you to program keys by dump of the immobiliser for cars, motorcycles & trucks.
- In-depth manual and technical support provided.
- AVDI owner dedicated forum.
